

**Departmental seminar by Prof. Rene M Koenigs**

**Title of Talk: *"Spin States Matter - From Fundamentals Towards Applications and Drug Discovery"***

Prof. Koenigs holds a full professor position in the Institute of Organic Chemistry at RWTH Aachen University. His research is dedicated to the chemistry of reactive small molecules and their application to organic synthesis. His primary research interests are in metal-catalyzed carbene transfer reactions, photochemistry, photocatalysis, and medicinal chemistry. He is a recipient of many prestigious awards and recognitions. Please refer to the following website for further details on the speaker.
