

Indian Institute of Technology Jodhpur
Office of Research & Development

No. IITJ/R&D/2022-23/03

Date: 07.11.2022

NOTIFICATION

Subject: Guidelines for filing Patent application from project/other funding source.

As approved by competent authority, Guidelines for filing Patent application from project/other funding source are as under:

1. For urgent cases and/or with the availability of funds from the PI (project/other funds), the PI may seek filing provisional patent application via R&D office (R&D office will notify IIPMG). In this case, the applicant will be IIT Jodhpur only and institute empanelled firms will be involved in provisional patent filing (as in the standard process).
2. If the attorney/firm finds the application suitable, based on the patent landscape, the provisional patent may be filed and PI will have to bear the cost through his/her project/other funding sources. After a provisional patent is filed, the IIPMG committee will discuss the full patent application with the inventors before filing it (within a year). Funding for full patent application may come from PI's sources or R&D funding.
3. For applications seeking institute funding, the R & D office will continue following the standard ongoing process and evaluation via IIPMG.
4. Fees for provisional filing to be paid from PI own financial resources i.e. project fund, PDA or Personal resources. IIPMG can consider the final patent application as standard ongoing process.

Other terms and conditions of the IPR policy of the Institute will remain same.

This issues with the approval of the competent authority.
