The internationalization of academic programs and research activities is becoming important for academic institutes in India due to thrust towards globalization of education system and introduction of new education policy. IIT Jodhpur made concentrated efforts during last one year to establish connect with the global universities for exploring possibilities related to student-faculty exchange programs, joint research guidance and projects, sharing of resources for mutually beneficial goals, joint academic programs, joint workshops and conferences etc. The institute has signed MoUs with multiple universities in the recent past to meet some of these objectives.

- **University of Western Australia (UWA), Australia:** It is ranked 92 in QS global world ranking 2021 and the MoU was signed during September 2020 for a period of five years to encourage faculty exchange, joint research activities, conducting joint conferences and other academic meetings, exchange of academic materials and information and exchange of students.

- **Deakin University, Australia:** It is ranked 275 in QS global world ranking 2021 and the MoU was signed during October 2021 for a period of five years. The MoU is signed with an objective to explore international transfer and mobility programs for students and faculty members, developing joint academic programs for working professionals, exploring jointly supervised PhD and Masters programs in targeted areas.

- **La Trobe University, Australia:** It is ranked 398 in QS global world ranking 2021 and the MoU was signed during December 2021 for a period of five years to explore joint teaching and research activities and supervision of joint PhD and M.Tech programs in targeted areas.

- **Université de technologie de Troyes, France:** The MoU was signed during October 2020 for a period of five years to explore reciprocal exchange of students for research or study, faculty exchange, joint research activities and publications, co-supervised thesis work, joint funding of research and educational projects and other mutually agreeable activities.

- **Lobachevsky University (Russia):** The MoU was signed during November 2020 for a period of five years to explore academic and administrative collaborations, mobility of students and academic staff members, exchange of academic information, joint research publications, organizing joint conferences and seminars, etc.
