Preface

The Centre for Emerging Technologies for Sustainable Development (CETSD) at IIT Jodhpur is hosting a multiple session webinar

Series 1 on 'COVID-19 Pandemic Disaster: Water, Agriculture and Environment'.

In this sessions, experts from different locations, subject areas will come together to shower upon us with their knowledge gained through their work in their respective domains.

The subject areas to be discussed is the current scenario on 'COVID-19 Pandemic Disaster: Water, Agriculture and Environment'.

With this webinar, :

1. We will discuss and knowledge related different facets of thoughts on sustainability
2. We will ponder "How engineering, science and arts can together provide ways to live harmoniously with nature?"
3. We will touch base with different institutions across the globe as well as listen/collaborate with regional institutions.
